

Family father. And a sex buyer?

The one who buys sex commits a crime and can be sentenced for it. 9.4 per cent of the male population in Sweden has bought sex at least once. These men often have regular jobs, families, friends, and social acquaintances. Regardless of which type of sex buyer you are, your crime contributes to sex trafficking characterised by physical and psychological violence, drug abuse, mental illness, and alienation.

If you suspect that someone is subject to prostitution or trafficking, call the police on ☎114 14
